GENWORTH PRESENTS "TOTAL LIVING COVERAGE"

Don't miss Genworth Financial's presentation of their product, Total Living Coverage (TLC). Linking universal life insurance and long term care insurance into one product, TLC provides a pool of benefit dollars for covered long term care expenses, a death benefit for beneficiaries, or both. Because TLC is universal life insurance, TLC's policy values grow income tax-deferred at current interest rates. Like long term care insurance, TLC can provide a monthly long term care benefit. And even if the entire death benefit amount is used for covered long term care expenses, a Residual Death Benefit is available.

Genworth is presenting their Linked Benefit UL/LTCI Product with what could be the strongest LTC Rider in the market. Join us for this call as we introduce you to the newest concept in a linked benefit product.

November 14, 2006

2 pm ET, 1 pm CT,
12 pm MT, 11 am PT
